NUMBER 6

APRIL - JUNE 2022

ORGANIC OR EUROPEAN ORIGIN ROASTED VEGETABLES AND CONDIMENTS ADD FLAVOUR, COLOUR AND CRUNCH!

Colin Ingrédients now offers a new range of high-quality roasted vegetables, all of which are free of palm oil and are organic or European origin. The perfect flavour-packed response to consumers' expectations!

Our in-house roasting process allows us to produce very high-quality roasted products. An even distribution of heat on the outside and at the heart of the vegetables gives an even better crunch. This new process also optimises the amount of fat used. Our roasted vegetables and condiments provide a natural, home-cooked flavour and add crunch to the texture of sauces, spreads, ready meals, breads, cereals, etc.

The intense colours of these ingredients will enhance the visual appeal of your dishes and can be combined to achieve the desired result.

+ POINTS :

- CLEAR SOLUTIONS / NO ANTIOXIDANTS
- MULTIPLE USES
- ORGANIC OLIVE OIL IS USED FOR THE ORGANIC ROASTED PRODUCTS AND EUROPEAN SUNFLOWER OIL FOR EUROPEAN ORIGIN ROASTED PRODUCTS.

MADE IN LINE
WITH THE ORGANIC
FOOD REGULATION
